

NOVABRAID™

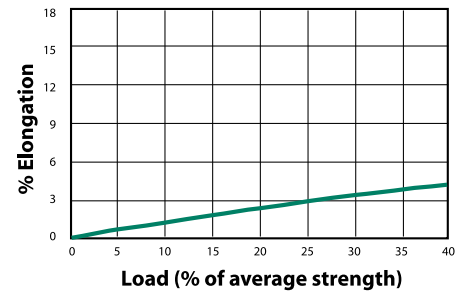

PERFORMANCE BY DESIGN

SYNTEC

SYNTEC is a high performance double braided line designed for club racers and performance oriented cruisers. Dyneema SK 75 and UV stabilized MFP yarns are blended to yield a light weight, low stretch, 16 carrier core. Core yarn colors match the primary cover color to allow for easy identification of tapered halyards. Syntec cores are also covered with a clear urethane to improve abrasion resistance. Syntec marine finish polyester covers feature a firm abrasion resistant 32 carrier construction with available white, black, red, green, and blue markers.

Features:

- Spliceable
- Low Weight
- Low Stretch
- Firm Cover
- Color Coded Core
- Abrasion Resistant

Suggested Uses:

- Halyards
- Control Lines

Size	Approx. Weight		Approx. Average Tensile Strength		
	Dia. MM	Lbs./100 ft.	Kg/100 M	Lbs.	Kg.
8		2.7	4.0	5200	2359
9		3.6	5.3	6500	2948
11		4.0	6.0	6700	3039
